Bruce Wayne's mission as the Batman has only been underway for a year or so, but he can tell he's making a difference. Unfortunately, he's made some powerful enemies. All the traditional power brokers of Gotham resent the disruption the Batman has brought to town...and it seems one of them has a plan to neutralize him. There's a second Batman haunting Gotham's rooftops and alleys—and this one has no qualms about murdering criminals, live and on tape. With the entire might of the Gotham City Police Department and Gotham's rich and powerful coming down on his head, Batman must find this imposter and somehow clear his name...but how can you prove your innocence from behind a mask?

Director and screenwriter Mattson Tomlin (*Project Power*, *Little Fish*) has teamed up with Eisner-winning suspense and horror artist Andrea Sorrentino (*Joker: Killer Smile*, *Gideon Falls*) to create a wholly new version of Gotham City, informed by grim reality, where every punch leaves a broken bone and every action has consequences far, far beyond Batman's imagination!

The Joker's attack on Arkham Asylum left the long-standing Gotham establishment in ruin, most of the patients killed or missing, and only a handful of surviving staff—a few nurses, a gravely injured security guard, and one doctor. In the chaos of the assault, it is believed that several of the asylum's patients escaped and scurried off into the dark nooks and crannies of Gotham City. Now, these Arkhamites walk among us, and it's up to the Asylum's one remaining doctor, Jocasta Joy, to round up her former patients.

Meet these Arkhamites: a woman with no face, a pygmy in search of perfection, a man who feels nothing and burns everything, a woman who must devour life to save herself, a man unfit for the waking world who looks instead for Wonderland, a body with more than one soul, a being unbound from time who lives in the present and the past, a boy who seeks the comfort of vermin, and the twisted man who sees them all for who they are.

And witness the avenging angel who stalks them.

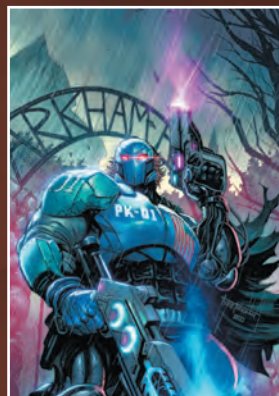

This fall, join writer Dan Watters and artist Dani on an odyssey through the deepest depths and darkest shadows of Gotham City and find all-new reasons to fear the night.

Hill House Comics is back and heads are going to roll for making readers wait! The new wave of titles begins with a rancid return trip to bloody Brody Island. For a year now, the mysterious axe that unleashed pandemonium during the hurricane of '83 has waited at the bottom of the bay but nothing that powerful stays buried. Brody Island has new visitors, and a new sheriff in town, too—not to mention a dangerous great white shark spotted in its waters—and when vacationing couple Calvin Beringer and Arlene Fields find themselves on the wrong side of Brody's unsavory elements, their beachcombing will turn up something a lot sharper than sea glass...

Crime novelist Rio Youngers joins forces with artist Tom Fowler to unleash a gonzo grindhouse expansion on the lore of the original *Basketful of Heads*!
